Our Angel is the third Baxters Series book. Mitch returns in book three but this time life isn't so easy. While changing the way she's learned to live, Mitch is changing the world, again. Security turns out to be the enemy more than once. Losing trusted family members to greed baffles Mitch and causes those close to rally around her. Jamie and Kevin pull out all stops to keep their Angel Baby safe allowing only the closest friends near her. Using Mitch's ideas and technology to help with security opens up a new world to her men, their bedroom and the Baxters Corp. But will it be enough? He's the watcher. He's been there for all her milestones. Sometimes he's too close, wishing he could hold her, hug her when she cries. Can the sexy golden eyed Ben help? Will he finally admit how he feels to Kevin and Jamie?
