A two week all-expense paid trip to the Aurora Island Resort to attend her best friend's wedding is exactly what Meghan MaCayan needs—until she comes face-to-face with the one man she's fantasized about for three years, the same man she swore she'd never let into her bed or her heart ever again. Jeff Malone can't believe his eyes when Meghan MaCayan walks into his sister's engagement party. She is the only woman he's ever loved, and the one woman he knows he'll never have. That won't stop him though. He's determined to fix what he'd broken all those years ago: her heart.
