Fiercely independent and determined, Meli left New York City and a broken life behind only to discover the playboy, Blake Temple, champion bull rider. Jill, her drinking, drugging, sleep-around sister offered temporary shelter, while Blake renamed her “Silver” for her graceful form and silvery blonde hair, and offered her an entire life. Could she surrender and allow herself to be loved? Only Maudie’s Café in the backwoods of southern Louisiana could offer her the anonymity she sought. So, she left them all behind and found a future of her own. But will love be a part of it? Bull Rider's Baby is a standalone, full-length romance with an HEA. This special edition includes two extra full length novels.
