This is Volume Four of a trilogy (yes it is--count them!) consisting of spoofs on supernatural tales and James Bond-like spy stories. In Volume Four, our usual Good Vampire heroes--Lance, Carol, Nigel, Becky and their associates, having defeated Bad Vampires, werewolves, mummies and zombies in the previous three volumes--now take on their worst foe yet: an elusive and Very Bad Vampiric Ectoplasmic Ghost named Mr. Very Big! And they must, in addition, find time to change their babies' diapers! Can they save the world from hydrogen bombs, plus volcanic lava and ash, all part of Mr. Very Big's Master Plot? Can their Ectoplasmic Destroyer Ray Guns fry the excess Evil Ectoplasm oozing out of Mr. Very Big? Read all about it while praying that they succeed!
