"They won't know what's hit them." Zeke Claybourne is playing with fire. The alpha wolf who lost his birthright as pack heir has learned the truth: he isn't infertile. In fact, his fated mate is already pregnant. But pack politics isn't always about what's true and what isn't. If he wants to reclaim his rightful place in his family, he has to be careful. Mathias Eklom just wants a future for his mate and unborn child. Fiercely protective of the baby growing in his belly, Mathias struggles with the role he knows he has to play as an omega. He isn't docile. He isn't submissive. He won't go down easy. Only Zeke has that power over him.

As they struggle to stay one step ahead of the wolves hunting them, they stumble across a horrifying truth.

What if Zeke's family knew he could sire a child all along? Why would they hide it from him? Zeke is tired of running. With only a handful of family he can trust, he needs luck and skill and strength on his side to protect his mate.

He's an alpha, so he's got grand plans: he'll right his family's wrongs and stay alive long enough to father the child he thought he'd never have. Book Two of the Alpha's Heir Trilogy contains steamy scenes between a possessive alpha wolf and his fated mate. It also contains male pregnancy (mpreg). If you missed out on Book

One, it's available on Amazon at the link below! <https://www.amazon.com/dp/B01FZGFIHS>
