**\*2018 Booksellers' Best Finalist\*** He was everything she never wanted and everything she craved Four nights Three cities Two people, running from the past Will one more night ever be enough? No-nonsense Alice O'Connor came to Stockholm for work, not to fall in love. But when she meets the elusive author Jonas Hällström, they both let their guards down for one sexy night.

And one night turns into more. Jonas has a darker past, the kind of past Alice has sworn off. The kind she has every reason to be afraid of. Can she reconcile the things he's done with the man who makes her come alive? "Deep, thoughtful and super sexy." - Jill, Goodreads 18+
