One Degree North is an Action Thriller set in the Far East in the 1960s: Welcome to the exotic island of Singapore, one degree north of the equator. It's February 1965, the second year of a small war: the Indonesian Confrontation. Communist insurgents are mounting ever increasing attacks on civilian targets and challenging the security forces. The criminal underworld is being challenged too. These attacks are bad for business.

Takings from gambling, prostitution, opium dens and protection rackets are down. Enter a heart-stopping Mata Hari to really spice things up. Plotting, deception, murder and intrigue rule the dark side of this tropical island paradise. You don't expect MI6 and the CIA to stand by and do nothing, do you? Remember, all's fair in love and war. Open the cover and enjoy the ride.
