Dale Carnegie's "How to Win Friends and Influence People" is widely known to have created the self-help genre, and though the examples in the full text are understandably dated now, considering the text was written in 1935, the advice given holds up remarkably well. This 2500 word executive summary by Spry Summaries distills the essential information from the seminal work into a compact form for easy and frequent reference. Keep the ons of Carnegie's important book handy at all times!
