Companion volume to 'Opening Moves', this volume answers the perennial question of the frustrated reader 'what happened to him?' Every character, both historical and fictional, has some record within this volume. Some solely birth and death dates but many are more intricate and will give the reader more information about life before and after 'Red Gambit'. Use with caution, as there is much information inside the Biographies which relates to events in 'Opening Moves'. Each volume of the Red Gambit Series will have its own companion biography set. Enjoy. [The 'Red Gambit Series' novels are works of fiction, and deal with fictional events. Most of the characters therein are a figment of the author's imagination. Without exception, those characters that are historical figures of fact or based upon historical figures of fact are used fictitiously, and their actions, demeanour, conversations, and characters are similarly all figments of the author's imagination.]
